Engine:Cummins 6CTAA8.3-G2

Alternator:Stamford/Leroy Somer/

Hengsheng

➢Controller:DeepSea/SmartGen/DEIF

/ComAp

Aspiration:

Fuel System:

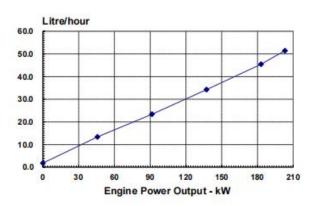

Displacement:

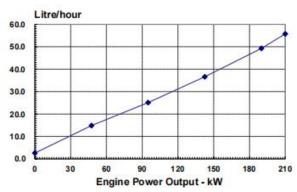

Cooled 8.3L

Turbochanger&Charge Air

No.of Cylinders: 6

BYC P7100/Electronic Governor

- ∻ NEMAMG1.JIANGHAO, and ANSI standards compliance for temperature rise and motor starting.
- Sustained short-circuit current of up to 300% \diamond of the rated current for up to 10 seconds.
- ∻ Sustained short-circuit current enabling down stream circuit breakers to trip without collapsing the generator field.
- Self-ventilated and dripproof construction. \diamond
- ∻ Superior voltage waveform from two-thirds pitch windings and skewed stator.
- ∻ Digital solid-state.volts-per-hertz voltage regulator with +1% no-load to full-load regulation.

Control Panel

The control module gives digital readouts of: Generator voltage; Output frequency; Engine speed; Battery voltage; Engine hours run.

Dimension:2500*1050*1600mm Weight:1700kg

Dimension:3300*1300*1800mm Weight:2750kg Fuel Tank Capacity:360L

The **control panel** is an Digital Control Module suitable for a wide variety of single, diesel or gas, gen-set applications.

Monitoring an extensive number of engine parameters, the module will display warnings, shutdown and engine status information on the back-lit LCD screen and illuminated LEDs.

The control module has indicators for failure information:

Over speed/Low speed, Emergency stop Low oil pressure; High water temperature Failure to start Battery charger failure

Automatic shutdown occurs under:

Low engine oil pressure; High engine water temperature; Over speed/Low speed; Failure to start after three attempts.

Electrical system

- Maintenance-free and anti-explosion battery
- Standard breaker
- ABB breaker (optional)
- ATS (optional)
- Battery charger (optional)
- GMS monitoring (optional)

Packing

- Wrapping film packaging
- Tray packaging
- plywood box packaging

Jiangsu Jianghao Generator Co.,Ltd
